Professional Summary

Motivated and detail-oriented Full Stack Java Developer with hands-on training in modern web technologies including HTML, CSS, JavaScript, and React on the frontend, and Java, JDBC, Spring Boot, Hibernate, and MySQL on the backend. Strong foundation in Object-Oriented Programming, database management, and building CRUD-based web applications. Quick learner, eager to contribute to real-world software development projects as a fresher.

Technical Skills

- **Programming Language:** Java, Core Java (Collections, Exception Handling, Multithreading, OOP)
- **Web Technologies:** HTML, CSS, JavaScript, React, Servlet, JSP
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Hibernate, REST API
- **Databases:** MySQL, SQL Server, JDBC
- **Tools & Version Control:** Git, GitHub, Maven, Eclipse, IntelliJ IDEA, Postman
- **Computer Fundamentals:** Object-Oriented Programming (OOP), Data Structures, Software Engineering, MVC Architecture
- **Soft Skills:** Problem Solving, Self-Learning, Teamwork, Communication

Certifications

- Full Stack Java Developer Certification – Cyber Success IT Training, Pune

Internship Experience

Full Stack Java Developer

Cyber Success IT Training, Pune

- Completed an intensive Full Stack Java Developer training program, covering Core Java, Spring Boot, Hibernate, REST APIs, and frontend technologies (HTML, CSS, JavaScript, React).
- Developed 2+ full-stack web modules by integrating responsive frontend interfaces with backend REST APIs and MySQL databases.
- Implemented CRUD operations and optimized database queries, improving data retrieval efficiency for application modules.
- Collaborated with peers on debugging, code reviews, and Git-based version control, gaining hands-on exposure to real-world development and Agile practices.

Projects

Online Bank Management System

Java, JDBC, Hibernate, MySQL

- Built a MySQL-based Bank Management System using Hibernate ORM, enabling efficient CRUD operations for 500+ simulated customer records.
- Designed a robust and secure platform for seamless creation, retrieval, updating, and deletion of banking records with data validation.
- Leveraged Hibernate ORM framework to map Java objects to database tables, ensuring data integrity, consistency, and reduced boilerplate JDBC code.

Employee Management System

Java, Spring Boot, Hibernate, MySQL, REST API

- Developed a Spring Boot-based Employee Management System with REST APIs for managing employee records, departments, and roles.
- Designed normalized MySQL schema and implemented Hibernate-based data access layer, streamlining CRUD operations across modules.
- Tested REST endpoints using Postman, ensuring reliable request handling and accurate JSON response structures.

Education

B.Tech, Computer Science & Information Technology

Oct 2022 – Jun 2025

Sagar Institute of Research and Technology, Bhopal

CGPA: 6.52

Diploma, Mechanical Engineering

Jun 2019 – May 2021

Sagar Institute of Research and Technology - Excellence, Bhopal

CGPA: 8.26

Class X, MP Board

Jun 2017 – May 2018

Maharishi Vidhya Mandir School, Bhopal

Percentage: 57%
